

Good Day:

I respectfully urge that FCC rejects the National Association of Broadcaster's petition 04-160. I travel a great deal and find that XM Radio is an outstanding tool when I am on the road. It is very easy for me to find the weather and traffic channel regardless of where I might be. This information comes in clear regardless of where I am. XM Radio is a service that I pay for. I do not feel it is proper for either NAB or FCC to determine what I am able to listen to.

Cordially,
